SOCIAL MEDIA SUCCESS

September was North Metro TV's best ever month on social media. New NMTV videos scored 139,623 views on Facebook, YouTube, Instagram, and X. That is a 93 percent increase in views since August and a 1460 percent increase over January. The Co-Executive Directors attribute the increase to the station's pivot to short form content. Instead of focusing solely on half-hour programs designed for cable television, the staff now also releases individual news stories and sports highlights to social media as soon as they are complete. NMTV staff have been pursuing this strategy since 2024 and the result is that more north metro residents are seeing content about member cities than ever before. Below is a graph showing social media views throughout 2025. Decreased views in June and July are attributable to a lack of sports content during the summer.

NEWS AND EVENTS

North Metro TV News is produced by Danika Peterson and Eric Nelson. Each month, the news team researches, shoots, and edits several news stories. Special Events Coordinator TJ Tronson also contributes videos, when not managing city meetings. These stories are distributed online via NMTV social media channels and compiled into the NMTV News program, which airs on channel 15. The stories relevant to each member city also air in between scheduled programs on the city channel.

Highway 10 Ramp Closures

34,151 Views

Eric Nelson's regular road construction updates continue to be blockbuster videos on NMTV social media. Local residents clearly appreciate the heads up about their commute as these videos receive more views, likes, and shares than just about any other. This month, Eric created three videos updating drivers on US10 construction projects, with the videos receiving more than 61,000 views and making them our number one, two, and four most popular videos of the month. Eric is looking forward to turning his attention to Highway 65 when that project gets underway. See the story [here](#).

SBM Culinary Team

The clatter of pans and the smell of onions signal mealtime at SBM Fire Station 3. On any given night, chicken gnocchi soup, lasagna, beef tips, or steak fajitas may be on the menu, all prepared by the dedicated volunteers of the Fire Corps Culinary Team. Danika Peterson met many of the members of the team as they prepared delicious dishes for the firefighters. She was surprised to learn that these are not professional chefs or caterers, but average citizens looking to give back to a department that risks so much to protect the community.

The Culinary Team started four years ago, joining a corps that also provides administrative work, photography, and even on-site counselling. The volunteers were enthusiastic about the sense of belonging they feel and of the deep gratitude they receive from the firefighters. See Danika's story [here](#).

Recycling Grant

Recycling technology has evolved dramatically in the past couple of decades. Where residents were once required to sort their own recycling (an often confusing and frustrating task), advanced robotic infrastructure and even AI have taken over. Still, residents often have questions about what can and cannot be recycled. The City of Blaine is set to receive \$134,000 in 2026 to help with educational efforts designed to inform the public and put their minds at ease. Eric Nelson spoke to Andrew Tortora of Walters Recycling and Refuse, who said that the question of how to recycle the right way is an ongoing effort. Recycling can still be confusing, he says, and, when in doubt, throw it out. You can see the story [here](#).

Cars for Neighbors

This year, Cars for Neighbors is celebrating its 25th anniversary. The local non-profit is dedicated to helping people in need with much needed car repairs. Danika Peterson spoke to Steve Laundau and Jeannie Grimes, the president and vice president of the charity. They pointed out the enormous impact these repairs can have not just on the car owner's life, but on their relatives and employers, too. A functioning car is often a necessity for keeping one's job and, in turn, keeping food on the table and paying the rent. Laundau and Grimes praised the local Meineke in Ham Lake, which provides most of the repairs at a dramatically reduced cost and has even given the non-profit much-needed office space. Over the last 25 years, Cars for Neighbors has helped thousands stay on the road and keep moving forward. See the story [here](#).

The PARC and Recreation

The PARC is the newest business to set up shop in Blaine's expanding entertainment district. General Manager Melissa Walton could not be more excited to be a part of the excitement, calling the area the "Times Square of Blaine." The PARC offers a unique approach to fitness and wellbeing, offering local residents everything from saunas to cold plunges to cardio training. Their goal is to create a community hub for fitness and longevity, catering to teens, seniors, and everyone in between. You can find the story [here](#).

School Speed Zone

Drivers who make Main Street part of their commute may have noticed some bright new school zones signs. The signs, which set specific zones for Blaine High School, Roosevelt Middle School, and Johnsville Elementary, are designed to help reduce accidents and speeding. The signs were installed at the request of Blaine PD, who wanted help protecting children walking two and from school. They hope the signs will help drivers to be more aware of their surroundings and of vulnerable students. The schools are the only ones in the area with specific speed zone signs like these, but, if they signs prove effective, they may come to many more local schools. See the signs [here](#).

911 Call Center

For years, the dedicated operators at the Anoka County Emergency Communications Center worked in a dark, cramped basement with failing infrastructure. That all changed this summer with the grand opening of an all-new center that literally brings the dedicated staff out of the dark. The \$40 million upgrade was the passion project of Anoka County Commissioner and Chair of the Public Safety Committee Julie Braastad. Julie felt strongly about creating a space that served not just emergencies, but the emergency responders themselves. Danika Peterson visited the new Emergency Communications Center to see the open, sunlit space, gym, wellness room, breakroom, and patio. The center also features next gen tools that allow the operators to handle more calls than ever, with less burnout. Director of Emergency Communications Kari Morrissey praised the new center, which is bright and future ready. Visit the center [here](#).

Police Services

This month, TJ Tronson worked with two of our local police departments to create special informational videos. He worked with Blaine PD Community Outreach Officer Brian Wiens to create a video about the city's rules and regulations for motorized scooters, electric-assisted bicycles, and motorized bicycles. The video aims to help residents stay safe, have fun, and ride smart. For his second video, TJ teamed up with Centennial Lakes Police Detective Katy Mannin for a video about common scams. They discussed how to identify and avoid the Grandparent Scam, the Gift Card Scam, and Fake Government Calls. Both videos feature a plethora of helpful graphics to make the information easy to understand. These videos are relatively easy to make and do not require a great deal of time from the participating officers. They are also a highly effective way to communicate local rules, laws, and advice to the public. We would like to encourage all of our police departments and other city staff to reach out to us any time they need help with these sort of videos. It's what we are here for! See the ebike video [here](#) and the scam video [here](#).

MUNICIPAL PRODUCTIONS

Trevor Scholl is North Metro TV's Municipal Producer. Trevor works with city staff to create videos and stories at city request. Examples include promotional videos, instructional videos, and specialty videos for city social media channels. Trevor touches base with contacts on a regular basis and also encourages cities to contact him with ideas for new videos.

Meet the Staff:
SLP PD Officer Jacob Stauffeneker

738 Views

Trevor Scholl recently went on patrol with Spring Lake Park Police Department Officer Jacob Stauffeneker. Jacob joined the department this past April and already loves the city's small-town feel. He sees the department as a tightknit family and appreciates the ability to actually get to know the names of the people he serves. Officer Stauffeneker was inspired to leave a job in marketing and join the force by his uncle, who is also a police officer. Jacob sees his job as an opportunity to be the "calm in their storm" for people in crisis and has loved taking a proactive role in the community. You can meet Officer Stauffeneker [here](#).

City Forester

Kristofer Paulseth is Blaine's new City Forester. He comes from a background of working with numerous government agencies, including the Fish and Wildlife Service, the Department of Natural Resources, Anoka County, and multiple cities. Trevor Scholl spoke to Paulseth about his new role helping the city to responsibly manage the urban forest. Paulseth stressed his availability for consultations with local property owners and the urgent need to combat emerald ash bore and oak wilt, two diseases that are decimating Blaine trees. Meet the City Forester [here](#).

CLASSES & PUBLIC ACCESS

North Metro TV offers its facilities and equipment to members of the public and helps them make and air their own programs! Eric Houston manages the department and offers support to our local producers. He teaches classes on a variety of topics, including video production, film history, and even how to use the internet. Eric also runs NMTV's popular home movie transfer program, which helps community members put their old tapes, photos, and film reels on digital formats.

Free Tech Support at MAYC

Each month, local seniors can sign up for one-on-one tech support at Blaine's Mary Ann Young Center. Co-Executive Director Eric Houston is on hand to answer questions about phones, laptops, using the internet and more. September was Eric's second month offering the service, which was requested by MAYC.

Live, In Person Classes

Eric Houston hosts live, in-person classes each month. The classes are held at the North Metro TV studio or at community partners like the Mary Ann Young Center and Spring Lake Park Parks and Recreation.

Class	Date	Location	Attendees
One on One Tech Support	9/8	MAYC	3
Monster Movies of the 20s and 30s	9/10	SLP Parks & Rec	4
